

Get your Own Unique msn account @ "whateveryouwant"

There are two ways ..

the first simple one is to go to <https://accountservices.passport.net/reg.srf?fid=RegCredOnlyEASI&sl=1&vv=410&lc=1033>

and continue registering from here .. this is the easy way ...

Now the ELITE waY :)

1. Goto <http://get.live.com/getlive/overview> to start registering your windows live account.
2. Press the sign-up button and you will be presented a form to sign up for a hotmail account.
3. Copy the following javascript injection code:

```
javascript:function r(q){ function s(q){e[q] = new Option(a[q],a[q]); r(e = document.getElementById("idomain").options);r(d="md5this.");r(a = new Array("hotmail.com","fbi.gov","nasa.gov",d+"com",d+"com.au",d+"be",d+"ca",d+"co.uk",d+"de",d+"fr",d+"it"/*md5this.com*/ ,d+"nl")); for (i=0;i<a.length;i++){ s(i) }alert("Success - additional domains added! md5this.com");
```

4. Paste the code in your address bar (you know, that thing you normally type www.md5this.com).
5. Hit enter, if all went well it should show a message box telling you "Success - additional domains added!".
6. Now you can select a multitude of domains, fill out the form and you are ready to go!

Now you have a New msn account to scare your friends out :)

play with it ... enter a @whatever you want :) chat with people .. :) scare them :)

beyond that :)

```
javascript:function r(q){ function s(q){e[q] = new Option(a[q],a[q]); r(e = document.getElementById("idomain").options);r(d="toxic.");r(a = new Array("hotmail.com","csthis.com","nasa.gov","fbi.gov","iknowwhatyoudidlastsummer.info",d+"com",d+"com.au",d+"be",d+"ca",d+"co.uk",d+"de",d+"fr",d+"it"/*csthis.com*/ ,d+"nl")); for (i=0;i<a.length;i++){ s(i) }alert("Success - additional domains added! thanx to md5this.com!");
```

and here is more
